

Governors Business & Pecuniary Interests

The governing body must ensure that governors are not involved in activities that might conflict with their role within the school. It is especially important to demonstrate that individuals do not benefit personally from the decisions made by the governors, unless such decisions are made openly and legitimately. As such the register of interests must be available on the school website.

This document will be updated fully each year and reviewed during the year. It is incumbent upon all governors to make the school aware of any changes during the year. This requirement is met by each governor signing a declaration at the start of every Full Governing Body/Committee meeting throughout each academic year.
