Social, Emotional and Mental Health

This fun activity is aimed at helping a child with anxiety – Calm me down box – As we get older, we learn ways to keep calm and manage stress. Children struggle with this, so we need to show them ways of managing their anxiety.

Get a large box and ask your child to decorate it. Explain that this is their box and that they can use it any time. In the box, put different calming activities e.g. a stress ball, bubbles, a CD with soothing music, a favourite DVD, anything that makes them feel good! Put the box where your child can easily find it and encourage them to use it whenever they feel anxious.

Physical and Sensory

- Make sure that you stay active everyday by joining in with Joe Wicks, live at gam!

- Spend the week making up your very own dance routine! Choose a favourite song and ask your grown ups to help you! Stay active whilst having fun!

Information for parents

Dear Parents and Carers,

Thank you so much for all of the time you have spent leaning with your child at home. You have stayed so motivated during the whole of lockdown and this will have had such a positive impact on your child. Keep it up!

I am out on the playground every Tuesday morning, so please say hi as you walk past. I love to see all of your smiling faces!
