INFECTION CONTROL

COVID-19

In Light of COVID-19

How does it spread?

How to stop the spread

- ▶ Cough into your elbow or tissue
 - ▶ Throw away tissues immediately
 - ▶ Avoid touching your eyes, nose or mouth
 - ▶ Wash your hands
 - ▶ Clean and disinfect
- 

Wash hands often

1. When arriving to work
2. After going to the toilet
3. Before and after eating
4. After sneezing/coughing
5. Before going home

How to wash hands

- ▶ 1. Wet hands with clean, warm running water.

- ▶ 2. Apply soap and lather hands by rubbing together.

- ▶ 3. Scrub hands for at least 20 seconds.

- ▶ 4. Rinse hands under clean, warm running water.

Clean Surfaces Regularly

1. Use disinfectant
2. Use disposable cloths
3. Clean all hard surfaces
i.e. handrails, cutlery etc.

Wear Gloves when Cleaning

Follow COSHH guidance
and wear eye protection/
Face coverings if needed

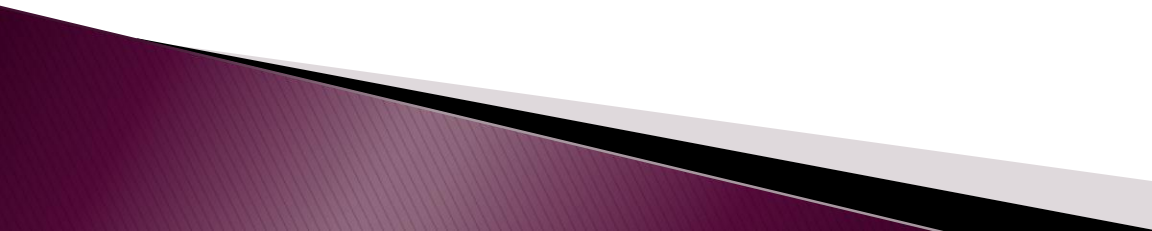

Keep toilet areas clean

► Don't forget:

- Taps
- Door handles
- Flush handles
- Locks
- Soap dispensers

Waste and Laundry

1. All waste should be put into a plastic rubbish bag and tied when full.
 2. Double bag and tie.
 3. Store securely for 72 hours, away from children.
 4. Throw away with normal rubbish.
-
1. Do not shake dirty laundry.
 2. Wash items in accordance with manufacturer's instructions.
 3. Use warmest water setting and dry completely.
- 

Symptoms of COVID-19

- ▶ High Temperature
- ▶ New, continuous cough
- ▶ Loss of, or change to, sense of smell or taste

If you suspect someone has COVID-19

1. Segregate

- 2 metres away from others
- Use different toilets
- Use PPE

2. Call parents

- Go home

3. Clean

- Use PPE

4. Person Isolates for 7 days

- Rest of household 14 days

5. Call NHS 111

- If symptoms deteriorate

Vulnerable Children and Staff

- ▶ Vulnerable Children and Staff must have additional controls implemented.
- ▶ The school must carry out a risk assessment to determine if they can remain in school

Infection Control

Remember

To reduce the risk of infections

- ▶ Wash your hands regularly
- ▶ Supplement if required with hand sanitiser (at least 60% alcohol based)
- ▶ Clean surfaces regularly with an anti-bacterial disinfectant
- ▶ Be Alert

Stay Safe
